

**Be A Real Woman.**

No. 835 Peace Avenue,  
Houston, Texas, May 14, 1905.

I was barren during the six years of married life, suffering with painful menstruation and a dozen other ills and pains. I was a poor excuse for a wife as I was not able to be up more than about half the time and daily grew weaker and weaker.

Wine of Cardui changed me into a different woman in five short months, made me robust and strong.

I am very grateful to you for my good health and am today blessed with a baby who is the pride of our home and this is all due to your medicine.

*Mrs. Julia Mason*  
Vice-President, Hecetown Mothers' Club.

Wine of Cardui brings health to sick women. Wine of Cardui brings children to barren homes.

How can any woman refuse the health Mrs. Mason has? Any woman can secure exactly the same relief if she will take Wine of Cardui. Wine of Cardui is a certain cure for menstrual irregularities. It will not do impossibilities but it does cure bearing-down pains, makes motherhood possible for barren wives and relieves the pains at the monthly period.

Secure a bottle of Wine of Cardui today. All druggists sell \$1.00 bottles Wine of Cardui.

## MANY BLUEJACKETS WERE IN THE CITY LAST NIGHT

Men from every ship of the fleet were given shore liberty and the streets were crowded with them during afternoon and night.

Many bluejackets from the vessels comprising the combined North Atlantic fleet were ashore last night. In fact the streets were crowded with them, and it was stated that about fifteen hundred had been given shore liberty.

The liberty parties came from each of the eighteen vessels in port, and as it was not the desire of the officers to have too many in the city at one time, it was necessary that the num-

ber from each ship be limited. From the battleships about one hundred were allowed from each, and parties from the other ships having smaller crews were in proportion.

All of the boys seemed to enjoy their liberty, some of whom had not had an opportunity of coming ashore for several months. The Naval Y. M. C. A. was crowded, and although the building at the corner of Jefferson and Zarragossa streets is a large one, it was taxed to its utmost to accommodate those who desired lodging.

While each of the men was out for a good time, they were not disorderly in any marked degree, and but few arrests were made by the police during the afternoon and night.

To-day it is expected that even a larger number will be ashore than last night, and if so the streets, restaurants and other places will be crowded during the entire afternoon and night.

### LANDRUMS DEFEATED IN SUNDAY'S GAME.

## PETRIFIED ARM FOUND IN SAND

PENSACOLA RAILROAD MEN MAKE CURIOUS FIND NEAR RIVER JUNCTION—PERFECT HUMAN ARM.

Conductor Meade Wilson and Engineer Geo. Hoffman made a curious find at River Junction a few days ago. It consisted of a perfect human arm which they found in a sand bank near there. The bank had caved in and a portion of the arm was exposed to view. Without digging in to see whether or not the whole body was there, Messrs. Wilson and Hoffman broke off the protruding arm and the member is now on exhibition in Dr. Thos. Mitchell's office in this city. The gentlemen believe that the whole body is in the sand bank and at the first opportunity they intend to return and dig for it.

The arm is an almost perfect specimen of that member of the human body, the bones and muscles being plainly outlined.

## THE DESMOINES ORDERED AWAY

FIRST OF THE CRUISERS TO GO TO ST. JOSEPH'S BAY FOR PRACTICE.

The cruiser Des Moines, which arrived here Tuesday with the North Atlantic fleet, is to be the first of the small class of vessels to go to St. Joseph's bay. She has just received orders to proceed there, and may get away from port this morning and engage in target practice for the next week.

Most of the small vessels, such as the smaller cruisers and gunboats, will practice at the above point, owing to the fact that at times the seas are very high on the range off Santa Rosa Island, which handicaps the gunners of the small vessels, owing to the rolling of the ships.

Stores had not been placed upon the Des Moines up to a late hour yesterday afternoon and it is possible that the cruiser will be unable to leave at the hour anticipated.

# The Cost

of purity alone exceeds all other costs of our brewing.

The absolute cleanliness; the purified air; the filtering; the aging; the sterilizing of every bottle—to omit these precautions would save half our expense.

But purity means healthfulness; and that is worth more than all else.
